**Subject:** North Coast MPA

I am a recreational scuba diver, free diver, spearfisher, ab diver, shore fishermen and boat fisherman. I am also a new dad. I hope to one day have the opportunity to teach all of these hobbies to my daughter as well as the conservation ethic which I was brought up with. In order for there to be opportunities for my daughter and I; I am writing in support of MLPA proposal 2. This proposal both creates conservation areas and allows for consumptive opportunities. I hope that you will consider my daughters consumptive opportunities in your decisions.

Thanks

Lilly's Dad
